

THE LOT VALLEY

PRESS PACK

ONCE UPON A TIME THERE WAS, A RIVER...

On one side the Mont Lozère, on the other the Garonne...
And in the middle flows a river, the Lot. Its Valley, like a long blue ribbon, weaves a unique strand of heritage, of culture and tourism which has developed across 5 départements, for you to explore at every meander of the river.

At the place where it all begins, the Mont Lozère... a humble source which springs from the earth at an altitude of 1,241metres, amidst wild flowers and spruces. At its finish, the Garonne, opulent and proud, the last leg before the ocean: the Lot has its mouth at Aiguillon. Between the two ends, the river flows turbulently over more or less 500 km... The Valley, such lovely a journey through all sorts of countryside: the high plateaux of the Aubrac, which look like the Mongolian steppes; the dense forests of Margeride, haunted by the memory of the beast of Gévaudan; emerald lakes, created by dams; steep-sided gorges, which take themselves for canyons; the rich plains of the Aquitaine, with their vineyards and orchards...

The Valley, is a fabulous journey back in time: from the prehistoric caves of Pech Merle to the mining basin of Decazeville, what a Story! Fortified châteaux and proud country houses which tell the tale of the Hundred Years War; Romanesque churches, sculpted like jewellery, which still resound with the ardour of the pilgrims of Saint-Jacques; the little river ports, living proof of the the boldness of the boatmen of times gone by, who, with their barges laden with wood and coal would make their way to Bordeaux.

The Valley, is an adventure at every meander.
A vast playground, for spending your holidays in tune with the 5 départements and the 5 senses...

See and marvel at the heritage;

Feel your body move whenever you embark on any of the many activities;

Touch with your fingers the artistic soul and the savoir-faire of the Valley;

Taste the sumptuous treasures of its lands;

listen and move in tune to its fêtes and festivals...

Happy Exploring!

AN UNDERSTANDING IN TUNE WITH ITS VALLEY

Here's a summary: In 1926, The Lot is struck off the list of navigable waterways. Little by little it loses its status of communication route. The 1960s see the decline of the Decazeville and Fumel industrial basins. So is the Valley becoming a Sleeping Beauty?

'Let's do a little bit of the river together': there is a clamour for real solidarity all the way from the source down to the mouth of the river, notably around tourism, which has been a factor in its development. 1969 sees the creation of the Association for the Development of the Lot valley, led by Christian Bernad with 5 départements involved: it brings together all those involved with the basin, the councillors, guild chambers, tourist boards, fishermen, navigation professionals, electricity providers... The first projects take shape around the redevelopment of the river to make it navigable once more.

1980 sees the birth of the Entente Vallée du Lot which, administered by 25 councillors, takes up the torch. Its task: to continue the economic, environmental, tourist and hydraulic development of the Valley.

The stakes are high: to turn the Valley into a thriving and dynamic basin for its inhabitants but also for tourists attracted by the fabulous potential that it has to offer. The environment is also a key word, with the need to improve the management and quality of the water.

Today, the Lot is once again navigable over virtually 150 km running through the départements of the Lot and the Lot et Garonne (The Aveyron département should open its first 14km long section by 2011) and river tourism is booming, thanks to the junction with the Baise and the Canal des Deux Mers. Another tourist success story: the cycle-route, which links Aiguillon to Bonaguil and goes on as far as Cahors alongside the river. After 40 years of hard work the Lot Valley is on the point of becoming The tourist destination not to be missed.

What it does

- Organises the development of tourism in the valley around inland navigation, cultural and heritage leisure activities around the water.
 - Makes people aware and gives information on the Valley and all it has to offer: for the public, schools, professionals, and canoe kayak lovers.
 - Takes part in seminars about the water and the integrated management of the rivers.
- To find out more about the Entente. And the Lot, a virtual visit, and various other information:

The heritage card

Once upon a time...

The castle that every child dreams about?
Bonaguil.

One of the most beautiful prehistoric caves in France ?
Pech-Merle.

A jewel of Roman art?
Conques.

An exceptional village, perched on its rock?
Saint-Cirq-Lapopie.

No you're not dreaming!

All that really does exist, at various points along the
Lot valley. The valley of Marvels.

Romanesque châteaux, country houses, abbeys and churches, prehistoric sites, towns and villages full of character: the banks of the Lot valley are filled with some quite exceptional heritage. It is the fruit of a variety of lands and scenery: the rich plains and slopes of the Garonne region, the barren and stark plateaux of the Quercy, the tortuous gorges of the Auvergne and the Gévaudan, The granite massif of the Margeride... And the Aubrac, of course, this vastness positioned on a plateau, forgotten by mankind, which displays its pastures and its burons (stone huts) with their corbelled slate roofs. An heritage which evokes the arrival of the first human settlers, in locations which seemed to them idyllic; the Hundred Years war and the creation of the fortified towns, these new towns of the Middle Ages; the faith of the pilgrims on their way to Saint-Jacques de Compostelle; the bravery of the boatmen who would risk their lives plying the river to transport wood, wines and cereals; the tenacity of the miners of Decazeville, who relentlessly mined the coal from depths of the earth.

So what is the Lot Valley? Well it's a very beautiful book of History to leaf through on your way down the river.

Châteaux

As before

Château de La Baume (48)

Royal! At the heart of the Gévaudan, a marvel of the 17th and 18th centuries all in granite: its inside with a great richness has made it become known as the 'Petit Versailles'.

Well worth seeing: ten rooms with their furnishings, tapestries, paintings, monumental chimneys, inlaid parquet... It's also one of the highest châteaux in France, at an altitude of 1200m!

So why not rent one of the 3 stargites in the outhouses?

Château de Cénevières (46)

Perched. Looking out over the Lot, Cénevières is startling: a part fortified in the Middle-Ages hides a true Renaissance palace. Ceremonial room, painted ceilings, gallery and an amazing alchemist's cabinet, which hasn't yet given up all its secrets. The must: the patio overlooking the Lot. It's the family who will show you around, and if you're lucky, Guy de Braquilanges, Monsieur le Marquis in person.

Château Le Chassan (15)

Family style. To the south of the viaduct of Garabit, at Faverolles, Le Chassan has been home to the same family since the 14th century! It was Jean-François Ponsonaille de Grizols who had the the current building constructed; and his descendants who love to see you admire the monumental staircase, the French style gardens, the 17th century tapestries. In the outhouses, exhibitions featuring the old trades, fossil and mineral collections.

Château de Peyrusse-le-Roc (12)

Two towers all on their own on a granite outcrop: the place cuts a fine figure! The site was a major stronghold.

Ruins, a rocky footpath, a medieval garden: enough to do wonders for the imagination.

Château de Roquelaure (12)

At the heart of a little village in the Pays d'Olt, a château in ruins which almost disappeared. A couple of enthusiasts gave a new lease of life to the three towers and to the main body of the building which goes back to the 11th century.

Château Le Bousquet (12)

Mysterious. At 5 km from Laguiole, a magnificent granite and basalt fortress, perfectly preserved: towers, crenellations, machicolation, chapel, secret underground passageways, this château has absolutely all the ingredients for a fairy tale! And even unsolved mysteries, including the one with a couple dressed in brocade costume, who were found immured...

The interior is richly furnished in the Italian renaissance styles and the gothic kitchen is superb!

Tel.: 05 65 48 41 13

Château de Bournazel (12)

Italian. Worthy of the châteaux du Val de Loire, Bournazel is a little gem! Built in 1545, this pleasure retreat is a treasure from the Renaissance. The façade of the north wing alone is worth making time to visit: columns, pilasters, friezes, males masks, imaginary characters... a real stone theatre. New from summer 2010, visit the interior of the castle.

It's beautiful and it's new!

Tel.: 05 65 80 81 99

Château d'Estaing (12)

Imposing. Château des Comtes d'Estaing from the 11th century mixing Romanesque, flamboyant Gothic and renaissance styles, with its restored rooms open to the public starting from the beginning of May.

Château de Bonaguil (47)

This is THE castle, the one that you dream about as a child, with knights everywhere. And yet, for the most part it dates back to the beginning of the 16th century: a powerful and mysterious lord, Béranger de Roquefeuil, struggled all his life to fortify it, at the time of the golden age of the Renaissance châteaux. Towers, turrets, a chicane, a large barbican, drawbridges and a complete defence mechanism built around artillery... which was never to be used!

In the summer, shows, concerts, theatrical plays, theme workshops for children and entertainment in period costume restore life to the old walls.

Château de Calmont-d'Olt (12)

Do you know what a Couillard (catapult) is? Have you ever used a crossbow? Or seen a catapult being used?

And a bombarde? The Middle-Ages war almost for real, this is at Calmont d'Olt. This 11th Century fortress perched on a basalt peak, still has some beautiful remains: interior, towers, dungeon, main building. The ideal setting to recreate the siege of a castle: demonstrations of military machines, jousting between knights, archery or crossbow, coin minting workshops...

And for the children, a real knight's certificate!

Penne d'Agenais (47)

On its spur, the cité defied both Simon de Montfort and the English. The air is thick with History: fortified doors, little streets with their steps, timber framed houses. Some fine restaurants and master craftsmen. Tourist Office: 05 53 41 37 80.

Pujols (47) Yet another village with a view! A little gem above the valley of the Lot, this most beautiful of French villages has kept its medieval heritage intact. A farmer's market in the wooden market hall.

Tourist Office: 05 53 36 78 69

Clairac (47) A port which was in use in the 18th century, has kept its boatmen and Coopers' houses, tobacco driers, a pretty washing fountain. Above the Lot. Montesquieu was a fan of all these places. OT : 05 53 88 71 59

The Bastides

These are the new towns of the Middle ages, concentrated in the South-west, with their grid pattern, central square lined with arcades and governed autonomous consuls.

Villeneuve-sur-Lot (47)

In all its splendour on the banks of the Lot, this river fortified town was built by Alphonse de Poitiers, brother of Saint Louis, in the 13th century. It has since lost its fortifications, but kept its towers, one of which is the Pujols tower, its timber framed houses and its central square, lined with leafy canopies or arcades. It's here that a lovely market is open for business on Tuesdays and Saturday mornings. A contemporary of the Pont Valentré de Cahors, the Pont-Vieux makes along with the Boutdu-Monde chapel a perfect postcard. Villeneuve is also the prune capital.

Romanesque art

Take your time as the pilgrims would have done to head to Saint Jacques de Compostelle and this is where you can start to find out about Romanesque art. It will guide you from church to church as you contemplate the rich frescoes carved into the stone of the tympanum and the marquees. With as the jewel in the crown, Conques and its fabulous treasure.

Conques

At the crossing of the gorges de l'Ouche with the valley of the Dourdou, in a natural crater in the shape of a seashell the medieval village comes into view, a Mecca for Romanesque art. Its half-timbered corbelled houses huddle around its church.

For centuries the Romanesque abbey church has been a subject of conversation. Begun in 1040, and finished in 1120, it became a "a stopover church" on the road between Le Puy/St Jacques de Compostelle until the 14th century.

Left to decay during the Revolution, it was in 1837 that the commune entrusted an architect from Rodez with its demolition. Prosper Mérimée who was a minister at the time, objected, and got it listed as a historic monument and in doing so saved its tympanum sculpted in the 12th century. The restoration work began and was finished in 1950.

In 1994, it was made even more beautiful with the addition of white stained glass which makes it possible to play around with the architecture of the basilica by filtering the light from outside.

Its treasure, jewel in time

Arising from the generosity of the emperors and Carolingian princes, the richness of the treasure became even more so in 866 from the relics of the Sainte Foy then throughout the Middle Ages from the donations from pilgrims. From the 10th century, reliquaries are fashioned at Conques using precious metals, Antique hard stones, pearls and gems. The Majesty of Sainte Foy, a reliquary statue designed to contain the saint's head is the most impressive piece of work. A unique item, one of the greatest examples of medieval silversmith's art in France.

Did you know?

Every year, more than 400,000 visitors stop over in the medieval village in the Aveyron, which is rated as one of the most beautiful villages in France and whose abbey church is a UNESCO world heritage site.

FEEL

Nature in motion!

From the steppes of the Aubrac to the Plateaux of the Quercy, from the gorges of the Truyère to the edges of the Célé, the Valley of the Lot looks beautiful. Sometimes with a green appearance, sometimes in blue. It takes on the riches of its meadows, it perfumes itself with the purity of its lakes and the freshness of its rivers. From its many scenery types, it weaves a unique character which exudes generosity, sensitivity and passion.

Whether you follow it over the 150 Km of cycle path, or at the lazy rhythm of a little water barge or on the numerous footpaths, you'll be struck by the same harmony: a real communion with nature. A sense of well-being which takes an immediate hold over you. Like the simple joy of the pilgrim or of the happiness of the fisherman in contemplation, but be warned: when you go into the Valley you'll get a real taste of this journey!

1. Cycling

From the high plateaux of the Aubrac to the gracious river bends of the Lot, taking in along the way proud medieval cities and perched villages, a host of paths and roads, drenched in the perfumes of wild flowers and liberty... The Lot Valley is a paradise for lovers of the bicycle: Saddle up!

4. Adventure !

Bring out the Indiana Jones in you. We're off to the Valley's parks, with the promise of adventure either on your own or with the family!

Are you really a Wolf? (48)

In the Lozère, in the Sainte-Lucie park, the answer is yes! And it's been that way for the last 25 years, in the very land of the beast of Gévaudan. Ever since Gérard Ménatory opened a conservation centre for this so little understood animal. More than 100 wolves from Canada, Siberia, Mongolia, Poland and the Arctic are back once more in their natural habitat living in 25 hectares in semi freedom. The guided tours help the public to understand the animals during the feeding sessions, games, or when the young wolves are having their vaccinations. And in the summer, during the 'Nights of the wolves' you'll be able to have a go at howling with the wolves! On site, stand alone 2 star gîtes for hire if you fancy spending the night with the wolves. The Gévaudan wolves, tel.: 04 66 32 09 22.

The Virebent factory at Puy-l'Évêque is one of the last three porcelain manufacturers in France. Founded in 1924, it has some quite unrivalled expertise, which enables it to use the three types of clay, earthenware, sandstone and porcelain. Some of its creations are even at the museum of decorative Arts in Paris. But when the business was about to close down in 1999, a young Parisian designer, Vincent Collin, took over the business. Today Virebent is in good health, producing tableware for top restaurants and is now developing its own range of tableware.

TASTE

Dinner is served!

A as in Aligot, B as in Black Wine, C as in charcuteries de montagne, Crunchy Mende biscuit, chestnut, F as in foie gras, P as in Agen prunes, S as in safran... The Lot Valley, valley of Marvels, Eden for the greedy among you: on the markets, in the farm, on the menus of the village inns just like those from the ones with one star or more, the expression of whole art of life. And what a choice!

From the plumeaux of the Aubrac to the sweetness of the Agen area, all sorts of countryside, crops and culinary traditions are what is so temptingly tasty about the menus.

Make sure your taste buds are standing to attention, take your seat, ask for the menu and get tasting!

The starters

The charcuterie:

Being a mountainous part of the country, the Lozère is the place to come for drying and maturing of salt meats like the fricandeau, the herb sausage, the potato sausage or the dry Lozère ham. And in the Châtaigneraie region of the Cantal, the pigs are happy and plump, having been fed for centuries on chestnuts which give their meat an irresistible flavour!

What you might want to buy:

For the gourmet lovers, the experts in fine foods, you'll see we have 16 month matured hams, poutous, succulent sausages and also all the specialities from the Gévaudan and from the Le Cayrolais understanding in this town shop at Cayrols(15),
tel.: 04 71 46 11 04.
www.le-cayrolais.com

Did you know?

What is the "pouteille" ?
A dish of pigs' trotters, beef dices and potatoes. And the manouls? It's tripe. Two specialities which both have their equivalent in the Canourgue.
And if at Bagnols-les-Bains, people call you a bag of bones, no panic, this is also a Lozerian speciality: the little bones of the pig cooked slowly in the animal's belly.

The dishes

L' Aligot, the ribbon of friendship

A purée of potatoes, with la crème fraîche and lots of authentic melted tomme cheese from the Aubrac. The recipe may seem simple, but you can tell a good aligot because of its unctuous and free-running mixture which only takes a bit of wrist power to produce! In the olden days it was a staple dish for shepherds, it's the classic dish of the Aubrac.
www.laguiole-aubrac.com

Serving suggestion:

On the hilltops of the Aubrac, le buron de Caméjane (Caméjane stone hut) no longer makes fresh tomme cheese but you can go there to enjoy some authentic Aligot. People love the ceremonial thing which involves cooking it in big cooking pots. Guests are even invited to mix it using a big wooden spoon. Good fun guaranteed! Tel.: 05 65 44 25 05

The Saint-Flour lentil

Watch out, it's a blond! And it's making a big comeback, saved by a handful of enthusiasts: grown at an altitude of 1,000 metres, on the Iplanèze, a plateau volcanic in origin, it is mild, sweet and has just obtained a Red Label. Well done blond!

The Estofinado

It's more than a dish, it's the whole story of the Lot which you'll find in your plate. It's based on stockfish (dried unsalted cod) that the Nordic boatmen brought with them when they used to transport the coal from the region of Decazeville along the Lot. Prepared with potatoes, eggs and crème fraîche, this most prestigious of dishes can be savoured in the restaurants around Almont les-Junies

Wine from Marcillac (12)

A mild climate throughout the year, abrupt red-soiled slopes known as «rougiers», Marcillac is in a class of its own. It's powerful, full bodied...and often the recipient of awards, AOVDQS and an AOC which is celebrating its 20 years in 2010. From the minor producers to the independent growers, it's worth looking into.

Cheese or dessert

La Tourtière (47)

Eggs, flour, water, salt

So far, nothing very original for A dessert ! All its charm comes from its savoir-faire: the pastry is kneaded at length, gently stretched and garnished delicately with apple strips marinated in Armagnac (or prune brandy). Much more than a puff pastry pie, it's a veritable institution when there's an occasion for a celebration.

The fruits, the stars of the Lot-et-Garonne

Its strawberries (the Gariguet and the Ciflorette) are Red Label, the Agen prunes are famous themselves, its hazelnuts a rare oil and it's the 3rd largest place in the world for the use of kiwis. In total, more than 70 varieties of fruits and vegetables which make this département the number 1 in France for diversity and the number 1 in the Aquitaine region for its organic agriculture.

The fouace (sweet bun) from Laguiole (12)

In the olden days, the fouace (sweet bun) made for public holidays and the Rameaux (pre-Easter) holiday... Today you can enjoy it in all good Aveyron restaurants.

The honey (48)

Do you prefer it creamy or liquid? With a chestnut scent to it, a touch of the Flowers of the Aubrac, or heather? In the Lozère you can choose, because it's the number one bee-keeping département in France owing to the exceptional quality of the environment. Here's an illustration.

The Prunes fair (47)

11 and 12 September. A fitting homage to this fruit at Saint-Aubin. In the program: local produce on sale and especially prunes.

The Cep Hats (48)

9 and 11 November.

The town of Mende becomes the capital of the king of mushrooms and celebrates "Les Toqués du Cèpe (The Cep Hats)". For this second edition, it'll be the whole town of Mende which will chime to the hour of the cep. The streets and squares become a forest with a frothy ground littered with giant mushrooms, in a cheerful musical atmosphere.
